

I love my XM Instant Traffic & Weather. because I live In the desert and travel to Los Angeles daily. Before I got Satellite Radio I could not get radio stations as I traveled to Los Angeles so there for I could not hear any weather or traffic untill I got into the area where the traffic was stop and go so by that time I was stuck in it,now I get the weather and traffic long before I get stuck in it and I can take alternate routs. There for I Respectfully urge you the FCC to reject the The National Association of Broadcasters petition 04-160 and allow XM Satellite Radio to provide the kind of programming that we deserve.

Respectfully Edward Sheehy
